SUMMARY

Self-motivated full stack developer with a strong understanding of web development, great communication skills, and the ability to thrive in a fast-paced environment. I'm looking to work with a fun and creative team to transform good ideas into great products.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java

Front-End Development - HTML, CSS, LESS, jQuery, HTTP request/Response, Ajax

Frameworks - Express/Socket.io, AngularJS, Spring Boot

Databases - SQL (MySQL, SQLite), NoSQL (MongoDB)

Methodology - OOP, MVC, CRUD Operations

Version Control - Git/Github

Servers - Node.js, Apache Tomcat

Development Tools - AWS, Spring Tool Suite

WEB DEVELOPMENT PROJECTS

Coding Dojo, *Full – Stack Web Development Student*

Bellevue, WA – 2017

Completed an immersive web development program with more than 1,000 hours spent learning and developing web applications using Python, MEAN, Java, Bootstraps, and MVC frameworks.

Projects:

Cooking Delight | GitHub: <https://github.com/Myhanhpham25/cookbook.git>

I created a full fun recipe applications that allows users to save their favorite recipes into their cookbook library. In addition, users are able to share and post their own personal recipes and photos among other users. They are also able to leave comments to personal shared recipes and add it to their own cookbook library.

- **Angular, JavaScript, MongoDB, Materialize bootStrap, CSS, HTML, jQuery, Amazon AWS (EC2), and Fork2-food API.**

Trivia Game | GitHub: https://github.com/Myhanhpham25/Java_Trivia

With a team of 3 developers, we created a fun trivia game using Open Trivia Database API. My role was to lead the overall process of the project. I initiated the project and provided the framework and required features to complete the applications. I was also responsible for finding a compatible API, design and structure of the front end plus deploying the app using AWS.

- **Java, Spring Boot MVC, Spring Tool Suite, mySQL, CSS, HTML, jQuery, Amazon AWS(EC2), and API.**

Phamily's Christmas Party | GitHub: <https://github.com/Myhanhpham25/JavaChristmas>

A fun holiday applications where attendances can RSVP, sign-up for potluck, leave comments, and find details about the event.

- **Java, Spring Boot MVC, Spring Tool Suite, mySQL, CSS/Bootstrap, HTML, and jQuery.**

Event Guide | GitHub: <https://github.com/Myhanhpham25/eventGuide>

Current project, event planning applications, users can create events, attend, post messages, and search events by locations.

- **Java, Spring Boot MVC, Spring Tool Suite, mySQL, CSS/Bootstrap, HTML, and jQuery.**
-
